

Dear math student,

March 4, 2011

Registration for Spring Quarter is ongoing and we hope you have registered for classes. If you want to take classes in Spring Quarter and haven't registered yet, please do so as soon as possible. **This memo is a reminder that a minimum grade of 2.0 is required to take the next level mathematics class as well as several other classes which have mathematics as a prerequisite.**

Therefore, it is important that you check your grade via the Shoreline CC web site ([www.shoreline.edu](http://www.shoreline.edu)), click on "current students", click on "more options", then "grades". Grades will be available by Wednesday, March 23<sup>rd</sup>. If your grade is below a 2.0, you will not be able to advance to the next level. **We strongly encourage you to change your class registration yourself.** International, Running Start and other special program students will need to contact their advisor right away.

**On the afternoon of Wednesday March 23<sup>rd</sup> the Mathematics Department will review the grades and withdraw students from Spring Quarter math classes for which they don't meet the prerequisite. This will also happen for Chem& 121, Econ& 201, Phil& 106, and Phys 110, all of which have Math 099 with a minimum 2.0 grade as a prerequisite.** With Spring Quarter starting on Monday March 28 your written notice via US mail of this change may not get to you beforehand, thus it is important that you check your class registration if you think you may be affected. You can do this on the web at "current students", "current quarter schedule".

If you are unsure whether you will pass your current math class, we encourage you to discuss this with your teacher and perhaps also with your advisor as you make plans for next quarter.

Our prerequisite checking policies are designed to provide the best opportunity for success for all students. If you have any questions, please do not hesitate to talk to your math instructor, or a math advisor in the Science Division (stop by the 2800 building or call 546-4567 for contact information).
