

ENGINEERING

TEST INSTRUCTIONS

1. Place your name on the test and hand in the test with your solution. Use engineering paper and pencil.
2. Do solutions only. **Do not** rewrite given or find statements. I must be able to follow how you did the problem. (Show all formulas prior to using them.)
3. Show all work.
Use sketches when necessary
4. Use correct problem solving format.
Double under line your answers and index in the margin.
5. Journals and textbook are allowed. **Homework problems are not allowed.**
6. **Use only the conversion in your text.**
7. **Journal may contain only your written information. No photocopies allowed in your journal.**
8. No calculators, books, papers, or equipment of any kind may be shared during the exam.
9. Be sure your name is on every page and that your pages are numbered correctly. (Do not staple exam.)

Good luck!
