- **Overall Grade:** Look on the class website [www.shoreline.edu/jlovejoy/Math70.htm](http://www.shoreline.edu/jlovejoy/Math70.htm) for the current point total for the course. At any given time in the quarter, you can check your grade by adding up the points that you have received and dividing by the current point total. This will give you your percentage grade.

In order to get a 2.0 in the course, you must have a 75% at the end of the quarter.

Feel free to ask questions about your grade at any point in the quarter.
