

Education Department Advisory Committee Meeting
June 15, 2006 1:30 – 4:00 pm
FOSS Building

Welcome and Introductions;

- In attendance: Lynne Ameling, Betty Peace-Gladstone, Berta Lloyd, Ken Lawson

New SERF Proposal and CCCP grants:

- The Education program is in partnership with the City of Seattle and other entities as they apply for a renewal grant for the SERF grant that is due to complete the existing funding cycle at the end of August. Lynne commented on the kudos that are due to Tasleem for her work on this grant, and how much it has contributed to the academic success of the children who have been in the SERF sites.
- The CCCP grant has been rolled into the new City of Seattle/CCR&R and Puget Sound ESD Early Learning Network grant (ELN). Our program will work with this partnership to support the offering of evening courses in EDU, as needed by the ELN.

Credit for Experiential Learning:

- Betty gave an update on the CPEL process. She is working with Andrea Rye, VP of Student Services, to establish a process in enrollment and transcripts so students will be able to submit independently created portfolios for assessment for CPEL to the Education department.

Education Online Classes:

- Betty gave an update on the status of classes that are now able to be offered online in the Education program; EDU 101, 105 and 115 are now online. Enrollment has been full, each time one of them has been offered.

Additional items: none.
