

BIOLOGY EDUCATION
ASSOCIATE IN SCIENCE – TRANSFER (AS-T) - TRACK 1
Major Related Program

This degree is part of the WA State Associate in Science – Transfer Agreement. It requires a minimum of **97.5*** quarter credits in specific course requirements as described below, and a cumulative GPA of 2.0 or higher. Students granted the degree are normally awarded junior status and in most cases will be able to complete their Bachelors in two additional years of full-time study. Students will be required to take additional General Education courses to fulfill requirements of their Baccalaureate college/university. **SEE REVERSE SIDE FOR A LIST OF GENERAL EDUCATION AND DISTRIBUTION COURSES.**

*Courses transferred in from other schools may carry fewer credits per course. If those courses are evaluated as equivalent to SCC courses, these requirements may be met with fewer credits. A student must have a minimum of 90 college credits to earn an Associates degree.

Students transferring to U of W must meet high school core admissions requirements, including two years of the same world language in high school or two quarters in college. The third year/quarter of a language is a graduation requirement for students in the College of Arts & Sciences at UW.

It is strongly recommended that students complete an entire sequence of science courses at one institution.

Students should consult with their advisor and the institutions to which they plan to transfer to make sure university admissions requirements will be met.
