

Shoreline Community College High School Completion Program “High School And Beyond” Plan

State Requirement: “Each student shall have an education plan for their high school experience, providing information outlining how s/he plans to meet his/her high school graduation requirements, and including what s/he expects to do the year following graduation.”

This “High School and Beyond Plan” asks that you think about your future and how you will make the most of your high school education. You are encouraged to complete this plan early in your studies as part of Shoreline’s High School Completion Program, and then continue to revise and update it throughout your time here to accommodate your changing interests and/or goals. Your plan must be submitted to the High School Programs Office before a high school diploma can be issued.

The above stated requirement may be met by either option described below.

Option 1:

Please attach a written or typed essay of 2-5 pages in which you discuss your high school education and plans for the future. We encourage you to include the following elements in your plan:

- What led to your decision to pursue the completion of your high school diploma through Shoreline Community College’s High School Completion Program?
- Your personal story – what experiences, interests, and goals have shaped who you are now and who you want to become in the future?
- Your learning style
- Your goals for high school – what will your high school years look like, including classes taken, extracurricular activities, sports, work, etc.?
- Your goals for immediately after completing your high school diploma – do your goals for high school prepare you for what you hope to do after graduation? How?

[Note: If you have taken a class in which you were asked to complete an assignment which addressed this same or a similar topic, you may be able to submit that assignment as your “High School and Beyond Plan”. Such a substitution will require the permission of Shoreline’s Director of High School Completion Program. Please consult your advisor for more information.]

Option 2:

A. Choose and complete a minimum of 5 of the following activities related to your high school education and/or your future academic and work/career path.
