

Shoreline Bonus Structure

In addition to the flat rate commission for each student, at the end of the academic year (summer, fall, winter, spring), we will calculate bonus payments based on the total number of international students who have enrolled full-time from your agency during the year.

Example: If 15 students enroll in an academic year, the agency will receive \$5,600 at the end of the academic year. The maximum bonus will be based on 25 students.
