TO: The College Community
FROM: Jack Kahn, President
RE: SUSPENDED OPERATIONS PROCEDURES 2024-25

Severe weather or other emergency conditions may warrant closing the College campus. In such cases, on-campus classes and online classes may also be impacted. The decision to close campus and/or cancel classes is made by me or my designee—only after serious consideration of many different factors.

CLOSURE TYPES

Inclement weather and other emergency conditions may result in two types of closures:

1) Campus is closed, services/instruction continues online.

- **Students/Public**
 - On-campus activities are cancelled.
 - On-campus instruction moves to online.
 - See syllabus for directions.
 - Students should not come to campus for classes or other College-related activities.
- **Employees**
 - Services move to online modality.
 - Employees should not report to campus, unless specifically required to do so.

2) Campus is closed, no services or instruction offered.

- **Students/Public**
 - Classes are cancelled, both on-campus and online.
- **Employees**
 - All services are cancelled.
 - Only those required to do so should report to campus.

Notification

In the event of a campus closure or emergency, the College notifies employees and students in multiple ways:

- **Rave Alert Emergency Messaging System** – Log in to [RAVE](#) to verify your contact info (including mobile numbers for texting) is up-to-date.
- **Website** – Notices are posted on [shoreline.edu](#).
- **Voicemail** – Notices are announced on the voicemail of the main College phone number (206-546-4101).
- **Social Media** – Notices are posted on the College's main Facebook and Twitter accounts.
- **Local News Stations** – Notices are also sent to local media outlets.

TIMING

Campus closure options may include opening late, closing early, closing for the day, or other variations. In all cases, notice will be made as soon as feasible. However, given the nature of area weather and any other emergencies, the desired forewarning period may not always be possible.

- When inclement weather/emergency conditions occur overnight, notification will be made by 5:00 a.m. if possible.
- When emergency conditions occur during a workday, notification will be made as soon as feasible.
