1. Log in to [www.nlntest.org](http://www.nlntest.org)
2. Click **My assessments** to view assessments only.
3. Find the desired assessment and click the start button. If testing onsite, wait until instructed by in-person proctor

# How to Navigate an Assessment

A question-by-question assessment contains questions on separate pages. To move between questions, you can:

- Use the **Next question** and **Previous question** buttons by clicking them (or touching them on a touchscreen) or pressing the spacebar (when selected). If you're viewing the assessment in a window with a small area, the Next and Previous buttons may be replaced by < and > buttons,
- You can also use the **assessment navigator**, to move between questions in an assessment. To do this, open the assessment navigator and use the mouse or keyboard to select the question to which you want to navigate. If you're viewing the assessment in a window with a small area, the assessment navigator button might be replaced by a  symbol.

# How to Use the Assessment Navigator

The assessment navigator allows you to select a question in an assessment without having to navigate through questions one at a time.

Click on the **assessment navigator** button to bring up the assessment navigator dialog, where you can scroll through the questions available in an assessment represented as numbers.

If you click on a number in the navigator dialog, it is highlighted in white, and the corresponding assessment question will be displayed.

Once a question has been answered, it will be highlighted in the navigator dialog.

The flagging feature helps you mark a question if you want to return to it later in the assessment.

To flag a question, navigate to the question you want to flag and click the  (Flag this question) button next to the assessment navigator button at the bottom of the assessment. A flagged question can be identified by the yellow triangle next to the corresponding question number in the navigator dialog.

# How to Use the Assessment Navigator - Calculator

The assessment navigator allows you to select other tools that are available during the exam.

Click on the **Assessment Navigator** to see the **Calculator** button. Click on the button to open an on-screen calculator during the exam.

NOTE: You will need to click on the calculator button each time you need to access it.

As soon as you click off the calculator, it will no longer be visible on screen. The Assessment Navigator will remain open until closed.

### NLN Nursing Pre-Admission Exam (PAX) (Delayed Reporting 4 hours)

The purpose of the Pre-Admission Examination-RN (PAX) is to facilitate admission decisions by providing nurse educators with a standardized instrument to use as a common basis for evaluating the academic ability of applicants to nursing programs. Each school determines the minimum score for their applicants. The NLN does not set a pass/fail, nor minimum score. Please contact your admissions department for more information.
