***Tony Doupe***

***Ann Garnsey-Harter***

***Lauren Hadley***

***George Watt***

***Mary Bonar (minutes)***

#### **Approval of the February 2021 Minutes**

CHAIR – Amanda Harryman

#### **Welcome and Introductions**

#### **College General Education Requirements**

Lauren Hadley introduced a college wide effort to re-evaluate General Education outcomes requirements. What skills are needed by our graduates outside of the required film course requirements? Specific examples in your workplace?

- Writing skills, communication skills, problem solving – business plans, specs for ads, purchase orders
- Leadership development - advocate and navigate within industry, public speaking, understand how to public present to specific audiences

- Communication!!!
- Organization skills - workflow
- Building reciprocal relationships – creative problem solving
- Business skills – money flow, interview skills
- Working with individuals (post covid)
- Marketing/fundraising
- Math vs practical math – statistics, analytics, metrics, budgeting, projecting  
Math is often the barrier to students graduating; how to address requirement for students to be successful.
- Information from this meeting can be moved forward to next meetings to address other solutions to meeting requirement.

#### **Program Updates with Tony Doupe**

- **Summer/Fall** – in survival mode during COVID, offering pilot acting class as Hybrid. Also for Fall, a select number of courses will be offered for fall. Still looking towards growth.
- Pro-Online has worked - Successful zoom meetings with producers
- Con-Production students have not had chance to work with equipment!
- Pro-small group work
- Con- individual creation vs group creation!

#### **College Updates with Ann Garnsey-Harter**

- Enrollment trends – down 8-9 percent.
- No budget cuts.
- President Roberts retiring June 2021 bringing change.
- Ann comes to campus daily – campus projects so repairs and maintenance as well as demolition of 2500 bldg for new Allied Health building!

#### **Shoreline School District with Dan Gallagher and Marty Ballew**

- Working with SCC prof tech programs with Lauren
- Looking to overhaul the technology – fiber optic vs wireless or other solutions
- CTE Funding \$ to spend now. Equipment and technology purchases.
- Teaching this year has focused on mental health – art therapy and fun!  
-Great work from film festival – maybe SCC and SSD work on projects together next year?

#### **From Industry**

- How could we work with members in the future?  
Preproduction and social media help  
Equipment for students to use on site with industry!  
Partnering with post production – color correction  
Partnering with filmmaker in film and photo programs  
Partnering with city to provide services to actors – opened office for one on one acting, podcasts, taping auditions, hopefully students to learn and work with professionals as assistance.  
Blacklight music video – Bollywood – dancers with neon dancing in blacklight – need some students and space.

**Schedule fall Meeting**

Doodle poll with majority preference of group.

**Adjourn 550pm**
